

HTL - Assignment-1

①

Name: Shaikrushna Santosh Zinde
Class: T.E-2 (N-2)
Roll NO: 31284

Problem Statement:-

Student should visit different websites for different Client project and note down the evaluation for these sites.

Objectives:-

- 1) understanding why planning is important before coding.
- 2) visit different websites and evaluate result of website.

Software/hardware req:-

- Google Chrome Browser
- Internet Connection

Theory.

planning the site:-

→ This is important step because it is the skeleton of website. The sitemap allows the developers to get an outlines of what the site will look, what pages are gonna be and how they are going to interact with each other.

Principle of Good website:-

① Website purpose:-

Website need to be accomodate the need of the user. Having a simple clear intention on all pages will help user interact with what you have to offer.

② Simplicity:-

Simplicity is the best way to go when considering user experience and usability of website.

③ Navigation:-

keeping Navigation Simple, Consistent on every page is key.

④ Load time:-

Waiting time during website loading will loose visitors. Optimizing image size will help to load website faster.

⑤ Mobile Friendly:-

It is important to consider building your website with responsive layouts where website can adjust according different screen sizes.

PICT, PUNE

(3)

Conclusion:-

Successfully performed the evaluation of different website @ their designs issues & solutions

Sr. No	Website Url	Purpose of Website	Things liked in the website	Things disliked in the website	Overall Evaluation
1	www.hotstar.com/in	Entertainment Website	1.Single Theme for both light and dark mode	1.For some screen sizes Content is getting override	Good
			2.Attractive UI	2.Too much buffering for low internet speed	
			3.Easy to use (Great UX)		
2	www.india.gov.in	Government Website	1.Option are given to change the font on website itself	1.Not Very User Friendly	Average
			2.We can switch the language	2.Mobile view can be much better	
			3.Bottom Navigation Bar	3.On mobile view some icon size changes	
				4.Button Colour is same as background colour	
3	www.pict.edu	Educational Website	1.Content is Updated	1.Too much White Space is Present	Average
			2.Almost Every Information is available	2.Too much loading time	
4	www.youtube.com	Simple way for people to store videos online and share them with others	1.Simple UI	1.Youtube ads	Good
			2. YouTube makes it extremely easy for your content to be shared with others through other channels like Facebook, Twitter, LinkedIn, email, and other websites.		
			3.Responsive Website		
			4.Dark Mode theme is very good		
5	www.w3schools.com	Education Website	1.Simple but attractive UI	1.Homepage UI can be made better.	Good
			2.Home page shows all contents of website	2.Font can be better.	
			5.Responsive Website
